CONDITIONAL PETITION TO REVIVE UNINTENTIONALLY ABANDONED PATENT
APPLICATION PURSUANT TO 37 CFR §1.137 (b)

Dear Sir:

Applicant has not received an Advisory Action or a Notice of
Abandonment for the above-identified patent application mailed
December 4, 1997. However, we anticipate the possibility of
receiving a Notice of Abandonment.

Applicant timely filed a national stage application on
December 4, 1997, the requisite 20 month filing date for the above-
identified application, but inadvertently failed to include the
required filing fee, mistakenly believing the filing fee could be
paid at a later date as is typically allowed in filing domestic

patent applications in the United States Patent and Trademark Office.

Applicant's attorney respectfully petitions the Commissioner of Patents and Trademarks to revive the above-identified application under the provisions of 37 C.F.R. §1.137(b) on the ground that the abandonment of the above-identified application was completely unintentional and grant entry in the national stage and assign a filing date to the above-identified application.

The original PCT application including specification, claims, an Abstract, and eleven (11) pages of informal drawings is on file in the United States PCT Receiving Office. The United States PCT Receiving Office was appointed as the International Searching Authority and a copy of the search results is on file in the U.S. Receiving Office.

Enclosed herewith for processing is a Declaration for Utility Application signed by the Inventor, Richard L. Cloud; Power of Attorney Documents signed by the Applicant, Richard L. Cloud and assignee of the Application, ICE ONE, LLC.; a Verified Statement Claiming Small Entity status for an Independent Inventor executed by the Applicant; and a Verified statement Claiming Small Entity Status for a Small Business executed by the Assignee. Also enclosed are checks totaling \$1,120.00 as payment for the filing fee, Declaration fee, and Petition fee.

It is submitted, therefore, that the above abandonment of the application should be held to be unintentional and inadvertent and that the case be revived an entry into the national stage be allowed as justice so requires.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the above-referenced application or any patent issuing thereon.

Respectfully submitted,
